SOFTWARE ENGINEER

I'm a full stack web developer with a passion for problem solving. I've developed troubleshooting and diagnostic skills through a decade of experience as a motorcycle technician. Now, I'm transitioning my career into engineering after discovering my love for code. Along with my code, I also bring strong communication skills, and proficiency in explaining complex issues to both team members and customers. I have a history of completing large projects efficiently and professionally.

CERTIFICATIONS & SKILLS

AWS Certified Cloud Practitioner

JavaScript, React, Redux, NextJS, NodeJS, Ruby, Ruby on Rails, HTML, CSS, SQL, Git, OOP

TECHNICAL PROJECTS

Pic-Share - Github

Image-sharing web application with likes and comments.
- Built with Next.js, using Supabase Postgres and Auth, and Cloudinary image hosting.
- Server rendered where possible for security and performance benefits.

Pic-Sure - Github | Demo

Image-sharing single page application with likes and comments.
- Built with React on the front end, and a Ruby on Rails API backend.
- Utilizes hashed JSON Web Tokens for automated user login authentication.
- State managed with Redux, and Thunk.

Flavor Town - Github | Demo

Restaurant listing site for documenting must-try restaurants and dishes.
- JavaScript frontend, Ruby on Rails API backend, and object oriented JavaScript classes.

Coffee Talk - Github | Demo

Coffee bean review site.
- MVC app in Ruby on Rails, implementing restful routing and resource management.
- Offers user signup and login with github Oauth, or a traditional username and password.
- Passwords hashed in DB and query protected on backend for security.

EXPERIENCE

Everett Powersports   Everett, WA

Motorcycle Technician   08/2015 - Present
- Proficient in the diagnosis and repair of mechanical, electrical, chassis, and fuel systems.
- In charge of devising safe and optimal solutions, quickly and professionally.
- Trusted to clearly communicate problems and solutions to both customers and co-workers.

EDUCATION

Flatiron School   Seattle, WA

Full stack Web Development, Ruby on Rails and JavaScript program.   08/2020 - 06/2021
